

Augment Ventures July 2018 Newsletter

Last month, we shared some fantastic news from [Iteros](#), as the company was just named a Top 10 Smart Energy Solution Provider by [Energy CIO Insights Magazine](#).

This Month, we are sharing tremendous developments from [Mercatus](#).

Mercatus has recently released their [Global Advanced Energy Research Report Volume 6](#), and [Enel](#), a key Mercatus customer, released a success story website featuring [Mercatus as a key partner in driving Digital Transformation](#) within Enel.

Enel and Mercatus Unite to Scale Digital Transformation

[Mercatus leverages a successful four-year working history within Enel's Renewable Energies Group](#). It has already produced double-digit productivity increases, and plans to expand the partnership. This will offer Enel's top management end-to-end visibility and control with increased growth and profitability across all of the Group's businesses.

Mercatus releases their Global Advanced Energy Research Report vol 6

Global Advanced Energy
**INSIGHTS
REPORT**
Volume VI

An analysis of historical trends and future predictions for the global renewable energy industry. Based on data from the Mercatus Investment Lifecycle Management (ILM) platform.

[Mercatus tracks trends in Energy project investments](#) from idea to end of life, from economic to commercial, from budgets to performance. Mercatus tracks over 12 asset classes across more than 100 countries totaling over \$400B of Assets Under Management. Our goal is to help energy investment managers anticipate changing market dynamics and leverage technology to gain a competitive foothold and increase profitability.
